

Our Hydroxyl Generator is a **complete odor elimination, air decontamination and purification system**. This totally **GREEN Technology** uses a multi-phase process to eliminate a long list of biological and chemical pollutants. Hydroxyls are probably the single most important cleansing agent for our environment.

### **HYDROXYLS ARE:**

33% more effective at oxidizing pollutants in the air than ozone,  
2.5 times more germicidal and fungicidal than chlorine.

This makes them the most effective method of eliminating bacteria, viruses, germs, mold, volatile organic compounds (VOC's), chemical fumes gasses, vapors and unpleasant odors.

### **HOW IT WORKS:**

Hydroxyls are not naturally occurring indoors, therefore, indoor air quality is said to be 10 to 100 times more polluted than outside air. By mimicking the natural production of hydroxyls in the atmosphere, this technology will help to create a safer indoor environment for all who desire a healthier lifestyle.

### **CLEAN AIR SYSTEMS**

- \*Are not hazardous to people, pets or sensitive equipment
- \*Do not generate accumulative ozone (<0.01ppm)
- \*Use no harsh chemicals
- \*Require only low maintenance
- \*Use very little power
